

## DESTROYER FLOTILLA ORDERED TO TAMPICO

### Navy Department's Action Follows Confirmation of News That Mexico City Is in Hands of Revolutionists

## NO DISORDER IS YET REPORTED

### Rebel Forces Give Assurances That Americans and Other Foreigners Will Be Protected Federal Leader Is Refugee

Washington, May 9. — Coincident with confirmation tonight in official dispatches of the capture of Mexico City by revolutionists, the navy department announced that the destroyer flotilla had been ordered from Key West to Tampico, also in rebel hands. No disorder was reported either in Mexico City or Tampico, and in both places assurances were given of protection to foreigners.

The embassy message made no mention of President Carranza. Other reports to the department said he had left the capital with a group of adherents, presumably for Vera Cruz, but gave no information as to his present whereabouts.

### No Opposition to Rebels.

While all reports agreed that the capture of the capital and Tampico had been without opposition and that order had been maintained, the presence at Tampico of at least one Mexican gunboat, it was said, might have prompted the sending of destroyers to that point. No official reason for the movement was assigned either by the navy or state department. According to the state department's advice, General Orozco, Carranza commander at Tampico, took refuge on the gunboat Jalisco when the rebels entered the city.

### Foreigners Promised Protection.

State department reports and messages to the rebel agents here told of the occupation of other towns. Prompt assurances being given by the revolutionists in several cases that protection would be given Americans and other foreigners. Four destroyers left Key West today for Tampico, Mexico, the navy department announced tonight. The remaining two destroyers of the six sent south from New York last week also will proceed to Tampico as soon as minor repairs are completed. Those enroute are the Schoonard, Putnam, Dale and Case. The Reid and Slusser are at Key West. It was indicated that the tender Black Hawk, with Captain Long, senior officer of the flotilla aboard, also would proceed to Tampico.

### Obregon Controls Mexico City.

El Paso, Texas, May 9. — General Obregon's forces are in complete possession of Mexico City, according to an official announcement made in Juarez late today by the revolutionists. There are no details of the occupation. The report that President Carranza had been arrested at Esperanza, state of Vera Cruz, while fleeing from the capital city to Vera Cruz, remains unconfirmed. The report said his capture had been effected by General Guadalupe Sanchez.

A bulletin issued at the revolutionary headquarters here today said members of the diplomatic corps representing various foreign nations met at Mexico City and requested President Carranza not to combat revolutionary forces marching on the capital. The bulletin gave Mexico City newspapers of May 4 as authority for the statement.

## Federal Troops at Vera Cruz Go over to Rebels

Galveston, Texas, May 9. — The federal garrison at Vera Cruz, consisting of approximately 500 well-armed and equipped soldiers, went over to the revolutionists early today, according to apparently reliable but unofficial advice received here tonight.

Revolutionary troops believed to be part of the forces of General Pablo Gomez, entered Vera Cruz twice before the federalists withdrew their assistance from the Carranza government, the advice said. First they penetrated almost to the waterfront and then withdrew to the outskirts because of the presence in the harbor of two Mexican gunboats.

Later, the rebels again entered the city and began occupying strategic points according to the advice. Fighting was said to be general for some time. The gunboats, however, did not leave the city. It was asserted.

The reports did not make clear whether the warships had deserted the Carranza cause.

President Carranza was said to be fleeing in Vera Cruz and a dragnet was reported to have been thrown out by the revolutionists to prevent his escape, if possible.

### Federal Commander Is Refugee.

Laredo, Texas, May 9. — General Francisco Garza, commander of federal forces in the Nuevo Laredo military district, tonight is a refugee on Mexican soil. Following defeat of his troops and capture of Nuevo Laredo by revolutionists early today, the Carranza officer arrived in Laredo tonight and took refuge in the Mexican consulate.

General Garza, who ordered his

## CERTAIN OF VICTORY

### Republican and Democratic Parties "Antiquated," Hillquit Tells Convention

New York, May 9. — The Socialist party of America today plunged into the active political warfare of the 1920 presidential campaign with broadside after broadside fired by its "big guns" at the national convention, mass-meeting in Madison Square garden.

Enconced in this fortress, which was surrounded by a strong cordon of New York police to guard against "anti-radical" demonstrations, the meeting hailed Eugene V. Debs, now serving ten years in the Atlanta, Ga., federal prison for violation of the espionage act, as the Socialist candidate for the presidency.

Ovation after ovation greeted characterization of Debs as "our only candidate."

International Socialism, to be gained by peaceful means through the "re-inforcement of political action by industrial action"—declared by speeches of Socialist leaders to signify the "general strike"—was declared the aim of the party amid the cheers of an audience of 5,000 persons.

The singing of "The Internationale," the hymn of Free Russia, and The Marseillaise marked the entrance into the garden of party leaders, but great care was exercised to exclude agents of the Industrial Workers of the World and Communist sympathizers, who attempted to distribute propaganda at the meeting.

Debs was proclaimed the party's presidential nominee by Morris Hillquit, once New York majority candidate, in an address in which he denounced the administration at Washington and both Democratic and Republican parties as "radically revolutionary" in contrast to the Socialist party, "the only constructive force in American politics."

Seymour Stegman of Chicago, general counsel of the Socialist party, outlined its 1920 campaign as already conceived by the national executive committee. He emphasized an international peace congress, elected by the voters of the nations of the world, cessation of the "exploitation of Poland" as a means to attack Soviet Russia, and the independence of Ireland, India and Egypt.

### Would Release Political Prisoners.

The reinforcement of political action by "industrial action" headed the party's list of domestic issues, according to Mr. Stegman, who declared also for the public ownership of railroads and release of political prisoners as among principal party demands.

Mr. Hillquit, in attacking the administration, declared it had employed force and violence in "revolutionary" tactics.

"The Democratic administration," he said, "has forcibly overthrown the corner stone of the republic the freedom of the press, speech and assembly, and has substituted for it the rule of the club and the jail."

"It has thrown over democracy into a virtual autocracy and has revolutionized all departments of the federal government in fact if not in name. It has abolished the department of state and created a department of propaganda in favor of every reactionary cause and movement abroad, with a bureau of internment instead of the former bureau of passports."

William Carter, of the Canadian police, was in Chicago today conferring with the states attorney's office. He said he would return to Canada to learn if the Canadian authorities desired to ask extradition papers for Ecrement.

## THE COUNTRY IS NOT GOING CRAZY

(From Arthur Brisbane's "To-day" Column in the New York American, April 22)

"Beveridge, of Indiana, once Senator, dreams a dream, more gruesome than anything composed since Racine wrote his powerful REVE D'ATHALIE. Athalia, 'during the horror of a profound night,' saw her mother, Jehoshaphat, torn to pieces by dogs in the street."

"Beveridge dreams fifteen million Americans out of work and much turmoil."

"There won't be fifteen million Americans idle; the country is not going crazy."

"But there will be turmoil and trouble, unless workers of the top, bottom and middle of the social pile go back to doing a day's work in a day."

"It took sixty years for employers here to realize that they owed something to labor that builds them up."

"It should not take sixty years for labor to realize that it owes something to capital, which means money accumulated, sometimes by cunning, sometimes by intelligence, nearly always by self-denial."

"The most dangerous folly in America is the idea of many workers that when they do a half day's work they cheat the employer and help fellow workmen to a job."

"They cheat themselves, putting up the high cost of living and preparing a day of reckoning. We don't see fifteen million men idle at one time, but we shall see a good many hungry, many breadlines formed, unless the day, once more, produces a day's work. And the workers, not the employers, will be in the breadlines."

"The women of the country should impress upon their sons, husbands and brothers one fact that men ignore:—

"ONE WORKMAN FOR A DAY'S PAY GETS ONLY WHAT ANOTHER WORKMAN PRODUCES. Cut the day's production in two and you cut your own pay in two in the long run."

## Slavs to Negotiate With Italy on Adriatic Status

London, May 9. — Authorization for the continuation of direct negotiations with Italy on the Adriatic question has been given by the Jugo-Slav government, according to a Rome dispatch to the Exchange Telegraph company, quoting a message from Belgrade. The message says that as a result of a crown council it was decided to give full power to a delegation to conduct such direct negotiations.

ius. It has reinstated the department of labor by substituting a bureau of jailings and injunctions for the bureau of mediation and conciliation, and a bureau of deportation for the bureau of immigration.

"It has abolished the department of justice in charge of an attorney general, and has created a department of panic and hysteria in charge of an alarmist general."

## Republican Party Also Condemned.

"Nor is the Republican party less revolutionary than its Democratic rival. It is the party of Leonard Wood, who has set aside the bill of rights and run on the enlightened and human platform of ship or shoot; the party of Thaddeus C. Sweet, who undertook to abolish the ballot; the party of Clayton R. Lusk, who conceived the novel idea of penalizing education."

"But our most vital advantage over our opponents is our certainty of victory. We cannot lose. The old parties cannot win. From the larger point of view of historical importance and true social value, how pitiful and insignificant is the choice of a President of the United States at this time. Whether Mr. Hoover, Mr. Wood or Mr. Palmer, or somebody else will grace the White House in the next four years, is a matter of utter indifference in the daily lives and struggles of the millions of American workers and their children. But the question whether and when they are to be freed from the system that oppresses and grinds them is one of vital concern to all of them, and every step in the onward march of Socialism means an hour nearer to the day of their eventual salvation."

## Waging Losing Battle.

"The Republican and Democratic parties represent an antiquated and decaying order. With all their appearance of strength they are waging a losing battle against the forces of the new social order to come. Their spokesmen are beginning to feel the approach of their doom, hence their convulsive clutching to power, their brutal terrorism, their abject fear."

"We Socialists represent the new social order. Hence we are invincible. For almost a century we have pleaded and fought and suffered for the world to come, the world of reason and justice, of peace and happiness. And now the day is coming. Don't you see it? Look around you! Behold the old order crumbling!"

"The petty politicians in Albany or in Washington will not stay the great change. Long live international Socialism!"

## HOLD MAN FOR PART IN ARNSTEIN EXPLOIT

### Chicago Police Arrest A. C. Ecrement, Also Wanted in Montreal and Buffalo

Chicago, May 9. — A. C. Ecrement, said by the police to be wanted in New York in connection with the negotiating of some of the \$2,500,000 securities alleged to have been stolen by "Nickey" Arnstein and Nick Cohen, was under arrest here today. Ecrement, who had been living here under the name of C. E. Arthur, also was said to be wanted in Montreal and Buffalo in connection with an alleged \$125,000 wire tapping swindle.

William Carter, of the Canadian police, was in Chicago today conferring with the states attorney's office. He said he would return to Canada to learn if the Canadian authorities desired to ask extradition papers for Ecrement.

The man admitted his name was Ecrement, the police said, and that he was a friend of Philip Kastel, another man said to be wanted in the Arnstein case. Ecrement denied that he knew Arnstein, but was said to have identified a picture of Cohen as that of a man he met not long ago in Chicago.

## REPORT GENERAL ELECTRIC IS BUYING GERMAN STOCK

Berlin, May 9. — The identity of the American group which has acquired a 25,999,999 mark block of the new stock of the General Electric company, has not been divulged by President Rathenau, although it is taken for granted here that the American General Electric is the purchaser.

The board of directors has not yet been kept informed of the negotiations, which were conducted secretly by four members of the board under Herr Rathenau's direction.

The Associated Press is informed that the names of the American buyers will not be announced for the present, as other deals in other directions are contemplated. The sum realized amounts to about \$1,350,000 which the German company is expected to devote to the purchase of raw material in the United States.

## "RAMPAGE OF EXTRAVAGANCE" MUST BE HALTED

### "Dance of Industrial Death Cannot Long Be Continued"

## THRIFT ONLY REMEDY

### National Association of Credit Men Outlines Seriousness of Situation

New York, May 9. — An appeal to the American people to desist from "a rampage of extravagance" was issued tonight by the National Association of Credit Men in the form of a letter sent by J. H. Tregoe, secretary-treasurer of the association, to its members. The letter read:

"The dance of industrial death in which the people of America are now participating should cease before they have to pay the piper."

"The extravagance of our people since Armistice day is one of those psychological phenomena to which man is subject. During the war period we sacrificed gladly, but with the cessation of hostilities, the restraint feeling broke loose and we went on a rampage of extravagance such as never before had been exhibited in this land."

"This nation is sound financially, and this soundness will continue if people will give up their folly, will become more diligent, will work as human beings should work during a time of stress and strain, and thus help to bring about a general deflation in currency so that prices may readily descend and that we may eventually be brought to a condition of industrial and financial health."

### Thrift Is Patriotism.

"Thrift is, in our opinion, the expression of real patriotism in these days just as it was in the period of war. The people who spend recklessly are losing sight of the nation's traditions; indeed, they endanger the institutions which some low spirits we are harboring among us are secretly plotting to destroy."

"We should practice and preach constantly, declaring that for ourselves we shall do our best and stop this insanity and bring to a close the melodrama of extravagance that is casting fear into the hearts of the people and producing results that are immoral and destructive."

"Just as we have expected, the big middle class of our people with fixed incomes, that least organized portion of our citizens, is feeling seriously the grinding process of the upper and the nether milestones. Prices have reached a peak where this class is finding it difficult to live with an even moderate degree of comfort, yet its resentment as complaints cannot be expressed in strikes, although they are suffering under present economic stress more than any other class."

"Denim and calico, together with the lunch box, make the most vivid way in which these people, who largely make up the most substantial element in our national life, can express their feeling toward the grinding process."

### POLISH CAVALRY ENTERS KIEV ON HEELS OF REDS

(By the Associated Press.)

Warsaw, Saturday, May 8. — Polish cavalry entered the city of Kiev Saturday morning on the heels of the retreating Bolsheviks.

The city has been evacuated by the Bolsheviks. The Polish infantry kept up its advance toward Kiev during the day, cavalry detachments keeping contact with the infantry forces. Kiev was entered by the cavalrymen from the west.

There was little fighting, according to reports reaching Polish headquarters in Warsaw, the cavalry going into the city all day as the infantry advanced in a great semicircle. A few machine gun shots were fired in the early morning as the cavalry appeared, but this was quickly silenced and reports say that the evacuation of Kiev began soon afterwards or as soon as the advancing troops appeared.

## BUTLER IS OPPOSED TO RECOGNITION OF SOVIET

New York, May 9. — In reply to a request from the National Civil Liberties Union through Alton C. Parker, its president, to define his position regarding recognition of the Soviet government of Russia by the United States, Dr. Nicholas Murray Butler, candidate for the Republican presidential nomination, declared he is absolutely opposed to it.

"Such recognition," Dr. Butler wrote, "if based upon grounds of possible commercial advantage, would be to sell American principles for money. The so-called Soviet government of Russia is a tyranny of a small, well-organized minority, which happens to occupy strategic points in the political and economic life of the Russian people. Their announced principles which include the exploitation of people by a class are abhorrent to every lover of liberty and to every believer in justice."

## CALLS ON DEMOCRATS TO SUPPORT TREATY

### Wilson Demands That His Party Go Into Campaign Standing Four-Square Against Senate Reservations

## LODGE IS "UTTERLY INCONSISTENT"

### His Amendments World Destroy "Role of World Leadership Which United States Must President Assume" Says

Washington, May 9. — A call to the Democratic party to go into the campaign standing four-square in favor of the treaty of Versailles and against the senate's reservations, was issued tonight by President Wilson in a telegram to Oregon Democratic leaders, made public at the White House tonight.

Declaring that the party had "the honor of the nation" in its hands, the President said that the Lodge reservations were "utterly inconsistent" with that honor, as well as destructive of the "role of world leadership which the United States must assume."

The only true Americanism, the President said, was "that which puts America at the front of free nations and redeems the great promises which we made to the world." It would be a violation of such promises, he said, to attach reservations to the treaty, which "whittle it down or weaken it, as the Republican leaders of the senate have proposed to do."

### The President's Telegram.

The telegram was in response to the following message from G. E. Hamaker, of Portland, Ore., chairman of the Multnomah county Democratic central committee:

"Primary election, May 21st. Please wire whether you consider it important to nominate candidates pledged to ratify Versailles treaty without Lodge reservations."

The reply of the President follows: "I think it imperative that the party should at once proclaim itself the uncompromising champion of the nation's honor and the advocate of everything that the United States can do in the service of humanity; that it should therefore endorse and support the Versailles treaty and condemn the Lodge reservations as utterly inconsistent with the nation's honor and destructive of the world leadership which it has established and which all the free peoples of the world, including the great powers themselves, have shown themselves ready to welcome."

### Should Apply Christian Principles.

"It is time that the party should proudly avow that it means to try, without finching or turning at any time away from the path, to apply moral and Christian principles to the problems of the world. It is trying to accomplish social, political and international reforms, and is not daunted by any of the difficulties it has to contend with. Let us prove to our late associates in the war that at any rate, the great majority party of the nation, the party which expresses the true hopes and purposes of the people of the country, intends to keep faith with them in peace as well as in war. They gave their treasures, their best blood, and everything that they valued, in order not merely to beat Germany, but to effect a settlement and bring about arrangements of peace which they have now tried to formulate in the treaty of Versailles. They are entitled to our support in this settlement and in the arrangements for which they have striven."

"The League of Nations is the hope of the world. As a basis for the armistice, it was authorized by all the great fighting nations to say to the enemy that it was our object in proposing peace to establish a great association of nations under specific covenants for the purposes of affording

ing mutual guarantees of political independence and territorial integrity to great and small states alike, and the covenant of the League of Nations is the deliberate embodiment of that purpose in the treaty of peace."

### Covenant Must Be Ratified.

"The chief motives which led us to enter the war will be defeated unless that covenant is ratified and acted upon with vigor. We cannot in honor whittle it down or weaken it as the Republican leaders of the senate have proposed to do. If we are to exercise the kind of leadership to which the founders of the republic looked forward and which they depended upon their successors to establish, we must do this thing with courage and unalterable determination. They expected the United States to be always the leader in the defense of liberty and ordered peace throughout the world, and we are unworthy to call ourselves their successors unless we fulfill the great purpose they entertained and proclaimed."

"The true Americanism, the only true Americanism, is that which puts America at the front of free nations and redeems the great promises which we made the world when we entered the war which was fought, not for the advantage of any single nation or group of nations, but for the salvation of all. It is in this way we shall redeem the sacred blood that was shed, and make America the force she should be in the councils of mankind. She cannot afford to remain in the place that nations have usually occupied and become merely one of those who scramble and look about for selfish advantage."

"The Democratic party has now a great opportunity to which it must measure up. The honor of the nation is in its hands."

## UNION MEETING IS BROKEN UP BY POLICE

### Seven Organizers For Iron and Steel Workers Arrested At Duquesne, Pa.

Pittsburgh, May 9. — Seven organizers for iron and steel workers were arrested at Duquesne this afternoon, when they attempted to hold an open air meeting under the joint auspices of the American Civil Liberties Union, and the National Committee of Iron and Steel Workers, affiliated with the American Federation of Labor.

The speakers, including W. M. Fink, an instructor in Brookwood college, Natoneh, N. Y., were charged with violating a city ordinance in attempting to hold a meeting without a permit.

Besides Fink, who represented the American Civil Liberties Union, those arrested were: R. W. Riley, secretary of the National Committee of Iron and Steel Workers in the Pittsburgh district; Bazza Danich, organizer of the United Mine Workers; John Ochoa, a general organizer of the American Federation of Labor; J. S. Beaghen, organizer of the Bakers' union; James S. Sause, organizer of the Bakers' union; and

## CREDIT STRAIN IS BIG FACTOR ON EXCHANGE

### Causes Pronounced Curtailment of Dealings During Past Week; Quoted Values Maintained.

New York, May 9. — The worldwide strain continued as a factor of overshadowing importance in the securities and commodities market last week, causing pronounced curtailment of dealings on the stock exchange.

Quoted values in the more popular issues were indefinitely maintained, and it seemed to be the general opinion in conservative circles that the entire financial structure rested on a shifting foundation.

Interior banks drew heavily on their reserves here, mainly, it was believed to help the early movement of crops.

From most out-of-town points a marked reduction of demand for commercial paper was reported.

There was a more hopeful feeling among speculative interests in the stock market, but this did not extend to the general market. According to commission houses, at no time this year has outside support been at such low ebb.

This feeling of apathy also manifested itself in the international market, dealers reporting far less than the usual volume of business in foreign exchange. So far as rates showed any change at all, however, they moved in favor of London and Continental Europe.

Further depreciation of domestic war notations, as represented by Liberty bonds and Victory notes, directed greater attention to the latest offering of the British government, which virtually carries a guarantee of seven per cent. Bankers regard this rate as indicating protracted tension or dislocation of the credit of the world's foremost power.

## HOW TO RAISE BABY CHICKS

Put Avicol in the drinking water.

Most people lose half of every hatch, and seem to expect it. Chick cholera or white diarrhea is the trouble. The U. S. Government states that over half the chicks hatched die from this cause.

Avicol, a white, crystalline tablet, placed in the drinking water, will positively save your little chicks from all such diseases. Inside of 48 hours the sick ones will be as lively as the others. Avicol keeps them healthy and makes them grow and develop.

Mrs. Vannie Thacker, R. F. D. 3, St. Paris, O., writes: "I had 50 chicks and they all died but 32. Then I commenced on Avicol and haven't lost any since. They have grown wonderfully well."

It costs nothing to try Avicol. If you don't find that it prevents and promptly cures white diarrhea, chick cholera, and all bowel diseases of poultry, you can return your money by return mail. Avicol is sold by most druggists and poultry dealers, or you can send 25c or 50c today for a package by mail postpaid. Burdett-Druggery Co., 639 Columbia Bldg., Indianapolis, Ind.

Lightning Can't Strike if Shinn Gets There First

It has been proven for twenty years, by the experience of thousands of protected buildings all over America, during the most severe electrical storms—that Lightning cannot destroy a building protected by Shinn-Flat Lightning Rods.

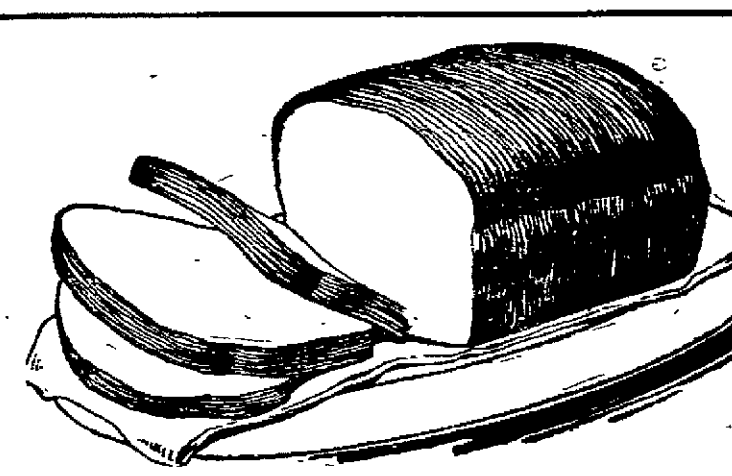

Shinn-Flat Lightning Rods Prevent Losses

They are distinctive in design, woven in a flat form with 36% greater capacity for carrying electricity than old-fashioned rods. All authorities agree that this is the best form of Lightning Rod—the safest and best, also the most attractive and the least conspicuous.

## WAS VETERAN OF CIVIL WAR

Albert Basford Passes Away at Home of Daughter in Unadilla.

Unadilla, May 9. — Albert Basford, 73 years old and a veteran of the Civil war, passed away at the home of his daughter, Mrs. T. Bert Crandall, Saturday morning at 8:30 from liver and kidney trouble. Mr. Basford was born at Little Meadows on October 17, 1847, and at the outbreak of the Civil war enlisted as a musician in Company D, third regiment, New York Infantry. Since the death of his wife 17 years ago, he had made his home with the daughter mentioned, who, with another daughter, Miss Alice Basford of Owego, and several grandchildren, survive him. He was a member of the C. C. Silver Post, G. A. R., and a man well spoken of by all who knew him.

Funeral services were held at the

daughter's home on Clinton street this afternoon at 4 o'clock. Rev. Yale Lyon, rector of St. Matthew's church, officiated and burial was in St. Matthew's cemetery. Members of Joyce-Bell post, No. 575, American legion, acted as bearers.

**Bainbridge Symphony Orchestra Plays.**

The concert given Friday evening in the high school auditorium by the Bainbridge Symphony orchestra was a success musically, but never before in the history of U. H. S. has so little school spirit been shown. There were barely 100 people present to hear one of the best musical programs that has been presented here in many a day. After the concert, an informal dance was held in the H. Y. C. house, music being furnished by the Bainbridge jazz band.

## Men's Club Gives Reception.

The Men's club of St. Matthew's church gave a reception to their wives, families and friends, in Mulford's hall Friday evening. The evening was spent playing cards and dancing. It does not seem right, but we must acknowledge the fact that the older married girls and boys have much more real "pep" than the younger crowd. Even though the old square dance and two step were frequently indulged in, the younger people learned that there is fun in that. At about midnight, coffee, sandwiches, ice cream and cake were served. D'Impertio orchestra furnished music for the occasion.

## Those Who Come and Go.

Mrs. John Zargo and daughter of Albany are guests at the home of her parents, Mr. and Mrs. Hiram Fish. — Mr. and Mrs. Ivan Wardell are week-end visitors in Oneonta. — Ivan VerValen and Barlow T. Loomis have returned from a six months' cruise to Scotland on the U. S. S. Wampum. In about three weeks, they expected to leave on the same ship for Hamburg, Germany.

## TWO SUNDAY DEATHS.

Mrs. George Snyder of Schenectady and Mrs. Polly S. Cady of Crumhorn.

Schenectady, May 9. — Mrs. George Snyder, a well-known resident of South Hill, died this morning at 5 o'clock at her late home. Death was caused by a shock which a week ago she suffered, but she had not for the past year been in good health. The funeral will be held at her late home on Tuesday at 2 p. m. Rev. Frederick Connel of the Schenectady Methodist Episcopal church will officiate and interment will be in the cemetery in this village.

The deceased was a daughter of the late John Wade of Simpsonville and was 57 years of age. She is survived by her husband and by one sister, Mrs. Ezra Haver of South Hill.

## Mrs. Polly S. Cady.

Polly S. Peaslee, wife of the late Frederick J. Cady of the town of Milford, died this morning at the family homestead on the Crumhorn where for more than half a century she had resided. She was born in Sperry Hollow, in the town of Westford, May 15, 1827, and was the daughter of Eleazar and Emeline (North) Peaslee. She was a loving wife and mother and a kind neighbor and friend, and all who knew her will sympathize with the family in her demise.

Mrs. Cady is survived by six children — Daniel H. Cady and George N. Cady, with whom she lived; Mrs. Davis E. Barnes of Schenectady; Mrs. Lester Howe of Cooperstown Junction; Mrs. S. C. Swackhammer of Schenectady and Mrs. D. F. VanZandt of Cooperstown; also by 17 grandchildren, 5 great-grandchildren and two sisters, Mrs.

Caroline VanBuren of Oneonta and Mrs. Joel Norton of Schenectady, and by many nieces and nephews.

The funeral services will be held at 2 p. m. Wednesday at her late home. Burial will be in the cemetery at Maryland.

## West Oneonta Woman Entertains.

West Oneonta, May 9. — Mrs. Claude Galer entertained a small company of women Friday afternoon in honor of the birthday of her sister-in-law, Mrs. Maude Northup. Mrs. Northup, whose home is in McMinnville, Oregon, is spending several months with relatives here. The guests at the party were Mrs. Alice Arnold, Mrs. Nettie Taber, Mrs. Sarah Ackley, Miss Lillian DeForest of this village, Mrs. Mary Hand of Oneonta and Mrs. Harriet Horton of Oneonta, all girlhood friends. A two-course luncheon was served by Miss Beta Galer. Mrs. Northup was given a set of silver bread and butter spreaders, and 52 daffodils, with the best wishes of the company.

## New Berlin Girl Married.

New Berlin, May 9. — Miss Freda Howard, daughter of Mr. and Mrs. Edward Howard of this village, was married by the Episcopal rector at the local parsonage last Tuesday to Henry Bard of Camp Upton, Long Island. The bride wore a becoming blue suit with hat to match. Following the ceremony, Mr. and Mrs. Bard left for a wedding journey to Ithaca and Syracuse. The groom has been in the army for the past eight years and served overseas during the world war for 25 months. Many friends of the bride here will extend congratulations.

## French Girls IN MAJORITY AS BRIDES

Far Exceeded All Other Nationalities in Eyes of Boys of U. S.

French girls far exceeded all other foreigners for popularity in the eyes of the American soldiers, sailors and marines, according to a report of the number of brides brought back to this country by members of the A. E. F. Records of nationality of wives of American military and naval men returned to this country kept at the port of embarkation at Hoboken shows that out of a total of 3,709 brides, 2,295 were French girls.

Until March 15 the nationalities of Europeans married by American service men abroad and returned to this country were French, 2,295; British, 1,101; Luxembourg, 92; Belgian, 79; Italian, 41; German, 31; Russian, 23; Spanish, 7; Swiss, 5; Polish, 3; Greek, 4; Dutch, 3; Roumanian, 3; Serbian, 2; Jugoslav, 2; Czech, 1; Mexican, 1; unknown, 14.

These figures represent only the number of foreign brides brought home by members of the American Expeditionary Forces who were received and cared for in the hostesses' houses under the supervision of the Red Cross at Hoboken. A number also came by commercial boats, and of these there is of course, no record at the port of embarkation.

It is understood that a total of approximately 5,000 members of the American Expeditionary Forces married foreigners.

## TRAVEL AND GET RICH

Money Gains in Value Ten Times During Little Trip.

Theoretically, it would seem possible to turn \$10 into \$100 merely by taking a short trip through France, Switzerland and Italy, says a Swiss correspondent to the London Daily Graphic.

He gives this formula: Take a \$10 banknote into France and change it for 429 silver francs. With these enter Switzerland, where they will buy 2,100 Italian paper lire, then pass into Italy and cash into Italian silver.

You now have 2,100 Italian silver lire. Take these back into Switzerland and you have 2,100 Swiss francs, as the silver lire are accepted here as equal in value to Swiss francs. Now buy French paper money, and you will receive 4,200 French francs. Return to France, where you buy English notes, and you get \$100—more or less.

Practically, it is not so easy, as silver coin is rare on the continent, and there is the French prohibition against carrying more than 1,000 francs out of the country.

## LAND WITHOUT A SMILE

Germany Thus Described by American Visitor.

Irving T. Bush of New York recently visited France, Belgium, Holland and Germany. Of conditions in the latter country he says:

"We went to the occupied territory first," he continued, "and then drove about 200 miles through Germany proper, including the city of Frankfurt, but did not go to Berlin. I had been informed there was no merchandise in Germany, but I found the warehouses packed with it everywhere I went. The people went about their work in a quiet, determined manner and kept their grief to themselves. I never heard the German people complain about their losses through the war in lives or property, and they never discussed the Kaiser or the crown prince in my hearing. The country can best be described as the land without a smile, because I never saw a German man or woman laugh while I was in their territory."

## HOBART BOY TAKES WIFE.

Miss Marguerite G. Williams of Brooklyn Is Bride of Rex Sedman.

Hobart, May 9. — Mr. and Mrs. Rex Sedman are spending part of their honeymoon trip at the home of his parents, Mr. and Mrs. William Sedman, in this village. They were married in Brooklyn on April 22, and after a few weeks spent in Atlantic City and Albany, moved to Hobart. Mrs. Sedman was Miss Marguerite G. Williams of Brooklyn. They expect to spend the summer in this locality.

On Thursday evening, 13 friends of the groom were invited to an informal reception, at which an elaborate lunch was served, with Mrs. O. R. Hurd of Stamford as caterer. A most enjoyable evening was spent.

A GREAT MORALITY MASTERPIECE

Sheldon Lewis to be seen in Dr. Jekyll and Mr. Hyde at This Theatre

On Thursday the special engagement of Pioneer Film Corporation's production of Dr. Jekyll and Mr. Hyde will begin at this theatre. Great interest attends this engagement, inasmuch as John Barrymore and Sheldon Lewis are just now fighting a battle royal for the first honors for the portrayal of this character.

The production has been mounted with pretentious lavishness, and a strong company appears in support of Sheldon Lewis. Great care has been taken in every detail of the presentation of the story, and it is expected to duplicate here the success which it enjoyed during its presentation in New York.

## The After Effects of Pneumonia

This is No. 2 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

Pneumonia attacks the air cells of the lungs. An inflammation is set up and matter is thrown off which causes the air cells to solidify, thus preventing the natural flow of blood thru the lungs. This "backing up" of the blood causes the heart to pump harder, just as stepping on a nose increases the water pressure, which is the reason why, during this disease, the physician watches the overburdened heart so carefully.

After recovery the lungs are filled with a mass of wreckage—the debris of the battle—which must be gotten rid of by a process known as resolution. Frequently, inflamed spots remain, congestion persists, cough hangs on, and the least exposure brings on a cold that is hard to get rid of. If neglected, such damaged air passages may easily develop serious disease of the lungs.

Such cases should always continue under a physician's care and frequent examinations should be made to see that nature is

properly continuing the rebuilding process.

Nightly applications of Vick's VapoRub will aid nature in this work. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

Samples to new users will be sent free on request to the Vick Chemical Company, 232 Broadway Street, Greensboro, N. C.

## POSITIONS FOR SOLDIERS.

Through the service and information branch of the general staff, it is announced that there are several thousand civil positions under the War Department now open for discharged soldiers partially disabled from wounds or diseases incurred in the war.

For some months past Secretary of War Baker, acting in conjunction with the Federal Board for Vocational Training and the Civil Service Commission, has been working on a plan whereby the War Department might provide for the partially disabled soldiers under its own jurisdiction. This plan has now been worked out, and is fully described in bulletin No. 12, just published, and copies of which can be had on application to the War Department.

Congress has already provided that in making appointments to clerical and other positions in the executive branch of the government preference shall be given to honorably discharged veterans and their widows or wives. This statute does not exempt applicants from the usual examinations under the civil service, but they will be required to attain an average percentage of only 65 in order to become eligible for appointment, while others must make at least 70.

Age limitations are also waived for veterans; they will be released from all height and weight requirements, except for the positions of guard and watchman; they will be certified for appointment in the War Department at Washington without regard to the apportionment of appointments among the states and territories; and after passing the necessary examination, they will have their names placed on a register ahead of those not entitled to preference.

## ENDLESS CHAIN OF STRIKES.

There is a great deal of force in an editorial which appeared in the Sun and New York Herald of May 4, "When a man with the strike habit," says the Sun, "kicks about the scarcity and price of sugar, it would be well if the grocer could show him a chart which appears in the latest issue of the American Sugar Bulletin.

"This chart shows that from the first of January to the present time there has not been a day when the manufacture or shipment of sugar has not been impeded by strikes.

"Plantation workers went out in Hawaii and Porto Rico. Refinery employees struck in Chalmers and Reserve. Dock workers struck in Havana, Jamaica, New Orleans and Boston. Boatmen struck in New York and Philadelphia. The railroad strike added to the agony.

"Sugar, of course, is but one of many important industries. All the others could be charted the same way. Business is completely interlocked and a strike in one line affects practically all the other lines.

"The striking switchman who grows because there is no sugar in the bowl must remember that he was one of the causes. And he is being blamed by the Havana dock laborer who has no flour in the bin."

## Cutting the Old Pine Trees.

Editor Star:—Can anything be done to prevent the destruction of the old pine trees in the bend at the Hale farm near Otsego?

The lumbermen who are cutting the lumber on the farm have already cut down two old pines which stood by the side of the road. There are a few others left standing on this attractive spot. What right have these lumbermen to cut these trees which stand between these fences and the highway?

It seems bad enough to have the forests depleted and there should certainly be a limit to the greed of the lumbermen and the beautiful old pines in the highway should be spared.

Dr. A. S. Barnes. As the Star understands the law, the trees in the highway belong to the abutting property owner and he has a legal right to cut the trees. It is possible that interested parties could purchase the trees under an agreement that they should remain standing.

## Mooseheart Legion to Be Instituted.

The Women of Mooseheart Legion will be formally instituted as an organization at a session in B. of R. T. hall on Saturday, May 22, at 10 a. m. It 7 p. m., a banquet will be served at the Oneonta, to be followed by speaking, singing and dancing. The public is cordially invited to procure tickets, which are priced at \$1.50 per date, of the members of the arrangements committee, E. J. Morse, A. E. Trout, T. E. Blanchard, F. Buck, L. L. Sullivan, J. Leddy, E. T. Burrows, L. H. House, C. W. Southworth and E. T. Hahoe.

## SEE \$12,000,000 FOR OTSEGO

BY REFORESTING ITS 20,000 ACRES OF IDLE FARM LANDS.

Lumber Would Be Worth That Amount in 40 Years Declares Floyd S. Barlow — Will Organize a Company to Finance the Project.

Were the 20,000 idle acres in Otsego county reforested now at an expense of not to exceed \$20 an acre, they would have lumber upon them at the end of 40 years at a very conservative estimate of stumpage value worth \$12,000,000, Floyd S. Barlow, manager of the Otsego County Improvement Association, told the directors of that association at the quarterly meeting of the board at the Municipal building yesterday afternoon. He said these acres are producing nothing save weeds to injure neighboring farm lands and are worse than useless. His remarks were embraced in a discussion of the problem of how to secure the largest number of reforested acres in the county to supply the lumber to be needed in the future. He declared that the association is undaunted by the failure of the various towns to adopt the township system of reforestation and declared that it could be made a most profitable investment for private capital.

After a thorough discussion, during which two plans were suggested, the majority of members favoring one big company controlling operations in all parts of the county, rather than individual companies in each town, it was voted to instruct the president to appoint a committee to report a plan for such a company. It is planned to report at an early date and to perfect an organization and proceed with the reforestation of many of these idle acres. Assurance was given that ample funds can be secured to finance the project, the difficulty being more how to secure the requisite number of trees than of finance.

## Highway Improvement Progress.

Mr. Barlow also reported of the progress of highway improvement in the county, saying that the board of supervisors approved the plan of improved county highways recommended by the association, and stated that all but one of the towns of the county will this year construct at least one mile of improved highways under such plan. The single town, Plainfield, will also follow, provided the necessary labor is available without interfering with farm work. Mr. Hoke, the county superintendent of highways, is gratified with the outlook and in conjunction with Mr. Barlow will arrange for two or three trips by town superintendents and supervisors and others interested to inspect county highways that have been constructed in other counties, quite possibly in Delaware, Chenango and Montgomery. It is expected that the highway committee of the board of supervisors and Mr. Hoke and Mr. Barlow will visit Jefferson county, where the most successful work and the largest number of miles have been constructed.

## Junior Extension Work.

R. Q. Smith, who has been at work but little more than a month as leader of the Junior Extension work, reported that there are between 1,200 and 1,500 boys and girls at work in various garden, calf, canning or other projects, with provisions made for an exhibit of their work for premiums where possible at the various fairs about the county in the fall. He asked for co-operation in displacing the opposition that parents manifest often toward children engaging in these activities for themselves.

## New Directors Chosen.

The reports show that there has been subscribed for the work of the association \$9,000 of the required \$15,000 for this year's work. Of this sum there has been paid in \$5,565.71, of which \$5,040.55 has been disbursed. The resignation of Frederick H. Meeker of Unadilla as director was accepted and John M. Hopkins was elected to succeed him. H. Greeley Brown of Otsego and S. J. Wilbur of Worcester also resigned, the former because of his removal to Chicago, and the latter on account of ill health and the granges at those places were requested to recommend a member from those towns as director. The resignation of Frank M. Smith as president, tendered because of his entrance into the field as political candidate, was by unanimous vote laid on the table.

The directors present included M. C. Hemmick and M. G. Keenan of Otsego, C. L. Stone of Cooperstown, Frank M. Smith of Springfield Center, George E. Crippen and Rev. C. B. Henry of Worcester, Jasper D. Fitch of Burlington Place, Charles F. Frear and Merton Moore of Gilbertsville, Stuart Holdridge of Garrisonville, Lee Kinne of Hartwick Seminary, John A. Leese of Richfield Springs, R. J. Smith of Roseboom and W. G. Wright of Milford.

## Vice President of Guernsey Club.

At the annual meeting of the State Guernsey club, held Saturday in Albany, C. A. Whitney of that city was elected president and Henry H. ## Japanese Girls Adopt American Dress

### Miss Kawai Sends for Expert Designer

Japan needs costume designers. The present mode of dress for women is about to be dispensed with in the interests of efficiency and to relieve women from "the tyranny of dress," according to dispatches received by the National Young Women's Christian Association.

Miss Michi Kawai, general secretary for the Japanese National Y. W. C. A., has sent an urgent appeal to the secretarial department of the American Y. W. C. A. with headquarters in New York, asking that an expert designer and drafter of patterns for women's clothing be sent to Japan.

Miss Kawai states that society is making new demands on women in Japan these days and that they must be free to respond. They have gone into industry in such large numbers during the past five years that the majority of industrial workers are now women. They have gone into clerical and stenographic work and into all of the professions and trades with the result that women can no longer spend the endless hours cleaning and re-making the respective wardrobes of members of the family as is necessary with the present mode of dress. The wave of industrialism has proved the value of time, formerly held as of no money value, and caused a depreciation of the value of fabrics, which are now made by machine.

The woman of ordinary circumstances in Japan, such as school teachers and the wives of small merchants, must have fifty or so dresses made of linen, cotton, silk or mixed materials varying with the use which is to be made of them. She must have dresses for spring, summer, fall, late autumn and winter, these latter having a heavy cotton wadding lining. She must have dresses in the varying weights for the home, the bath, the street, for ordinary social occasions, for dress-up wear (these have a silk lining and a cotton interlining) and a dress for grand occasions. In addition she must have at least two kinds of coats, one cut with a square neck and one with the ordinary kimono neck.

## COMMENTS OF THE PRESS

### The Public as Strike-Breakers.

Apart from their own intrinsic inequity, the most noteworthy feature of the outlaw strikes undoubtedly was the attitude of the public. Or perhaps we should say "action" rather than "attitude" for action, and very vigorous action, it was in a multitude of cases. It was no doubt logical that the public should interest itself, because, in a peculiar sense, the strikes were directed against the public, as if with the main purpose of causing it as much inconvenience, suffering, and loss as possible, and just for the sake of doing so. Nevertheless, it was unspeakably gratifying to see that not only was public sentiment practically unanimous against the strikes, but also that multitudes of good citizens eagerly flocked to the scene as voluntary strike-breakers. (New York Sun.)

### Trouble-some Question.

Lord Robert Cecil was the most influential member of the league of nations in Great Britain, but a rather troublesome question in the House of Commons was whether the government was doing anything to encourage the study of languages before the League of Nations was established. It was pointed out that Poland and Russia had done so, and that there was no such intention on the part of the government. (New York Times.)

### Nernstenthaler for Hall of Fame.

Whether or not Oswald Morgenstern, who has been nominated for the Hall of Fame, is really there will be very few printed notes regarding the election that will not have been published with the aid of his genius. (New York Times.)

### They Want Serenities.

"Serenities" was a play sent down from heaven. "Way, yes." "Can they like to have it sent up there, don't they?" "The House Sector." (New York Times.)

### A Republican Corps d'Elite.

Whether the republic of Germany is allowed to keep a regular army of 100,000 men, it will not be easy for the Allies to prevent the maintenance of volunteer corps all over the

country. These dresses are made by hand and must be ripped apart at least once a year, laundered or cleaned, and put together again. They are made of light, delicate fabrics, and are so tight around the bottom that the women cannot walk comfortably and hence must ride. As Japanese women do not take kindly to the street cars, largely for the reason that their delicate kimonos are liable to be soiled, they ride in jinrikishas, which is an added expense to the cost of making, re-making and taking care of their kimonos.

This movement for the adoption of a simplified style of dress and American machine-made clothes which can be laundered intact, began in the government private schools for girls where a uniform, cut on lines similar to dresses worn by school girls in the United States, has been made compulsory. For example, the uniform in one school is a dress which hangs straight from the shoulders and is belted loosely at the waist, and has a Windsor tie worn. The absence of the kimono sleeve is the most distinctive feature about this dress. A plain soft-brimmed sailor hat with ribbon streamers is worn with this costume.

Japanese girls attending college in this country are being urged to take their American clothes home with them, and to wear them in order to sanction the one-piece dress and the washable blouse and tailored suit of the western part of the world as the most economical sort of dress.

Miss Kawai predicts that European or American clothes will be adopted for street wear shortly but that Japanese clothes will be retained for home wear. She also says that most school girls are wearing American shoes and stockings now. Adoption of European dress will, in her estimation, do much to encourage Japanese women in using such public and modern utilities as the street car.

The Japanese Y. W. C. A. is also searching for a woman who can "train" Japanese modistes in the art of designing, drafting, cutting and making these new garments.

Remorseless Greed. "In the old days we could buy votes outright in your district." "Yes," replied Senator Sorghum; "but the profiteers ruined the business." (Washington Star.)

### CHAUFFEURS' EXAMINATION

Next Opportunity for Oneonta Drivers Will Be Wednesday, May 12.

Albany, May 9.—Oneonta will receive a visit next Wednesday from the state examiner for chauffeurs, Secretary of State Hugo having scheduled an examination for Oneonta on that day. It will be held at the High school and will get under way at 10 o'clock. From the number of permits that have been sent out of Albany to those desiring to take the examination, it is probable that at least 20 will be present to take the required test. The demand for chauffeurs is extremely heavy these days through the large registration of motor trucks, as well as the fact that many concerns engaged in the automobile business are sending drivers by rail to the factories and bringing their cars overland.

It is noticeable this spring that very few women are becoming licensed chauffeurs. In fact, out of 800 persons who were examined and passed during the last month, only two were women. Two years ago, many of the female sex became chauffeurs in order to fill the places made vacant by men at the front.

## DELHI BOY WANTS TO FLY.

Enlists in Navy When Local Recruiting Officers Tell Him of Advantages.

Chief Gunner's Mate W. E. Van-Zandt, of Syracuse recruiting headquarters, and First Class Boatswain's Mate James W. Robinson, the local recruiting officer, are continuing their tour of this vicinity, seeking men who are anxious to join the navy. Last Thursday they "flattered" to Delhi and Merida, spending the night in the latter village. When Richard A. Jesnowski of Delhi saw the NC-4 propeller blade that is being carried by the party, his eyes stuck out, and it wasn't long before he had been enrolled as an apprentice seaman for aviation mechanics and sent to Syracuse to try his final examinations.

Last Friday, the party left Oneonta for Cooperstown, where at last reports the men were still telling of the opportunities for education and travel the navy offers and urging men of that village to enlist. They probably will return to Oneonta headquarters early this week and leave shortly afterward for the towns along the Oneonta-Blanckton highway.

## Robinson Heads State Masons.

At the closing session of the 159th annual convention of the Grand Lodge of Free and Accepted Masons of the State of New York, held last week in the city of New York, Mr. Robinson of New York city was elected Grand Master. He succeeds William S. Farmer of Syracuse.

Justice Arthur S. Tompkins of New York was elected deputy grand master; Harold J. Richardson of Louisville, senior warden; and Charles H. Johnson of Albany, junior warden. Christopher J. Mollenhauer and Robert Judson Kenworthy, both of Brooklyn, were re-elected respectively grand treasurer and grand secretary.

It is of local interest to note that the new Grand Master, Mr. Robinson, is the only brother of Mrs. Samuel Mahady of 55 Maple street, this city.

#### End of Clean-Up Week.

Clean-up week in Oneonta came officially to an end on Saturday. During the six-day period, much good was accomplished and without doubt, Oneonta looks cleaner, brighter and better, as well as being from a sanitary standpoint more healthful, than it was a week ago. If there are some bits of cleaning-up as yet unfinished, and there may well be, in view of weather conditions of the first week in May, owners and occupants can doubtless be trusted to look after them, so that when June comes smiling in, ours will in fact be a spotless town.

#### U. S. A. ARMENIA'S HOPE

So Declares Dr. Geo. E. Huntley  
Speaking of Own Experiences

#### ADDRESSES LARGE AUDIENCE.

At Union Service at First Presbyterian Church Last Evening — Horrors Surpass Human Conception — Chapin Church Gives Over \$500.

It is impossible to tell the whole truth of the horrors of poor, persecuted Armenia to an audience like this, for it passes human conception, declared Rev. Dr. George E. Huntley, former pastor of Chapin Memorial church, later and for 12 years professor of homiletics at St. Lawrence university, and for the past three years president of the General Sunday School association of the Universalist church, addressing a large audience that crowded to capacity the large auditorium of the First Presbyterian church last evening, many of the churches of the city uniting in the service. The attendance was gratifying indeed, indicative not only of the cordial and friendly esteem in which Dr. Huntley is held here, but also of the deep interest felt here in the suffering people of the Near East. Dr. Huntley was one of a commission of 18 representatives of us many denominations sent last year to Syria and Armenia by the Near East Relief, with the authority of the United States government that they might make a thorough investigation of conditions and speak with the authority of first-hand knowledge.

The lecture was one of absorbing interest and held the closest attention of the large congregation for an hour. It was illustrated with many views of the trip and the country and of the unfortunate sufferers at the hands of the Turks, from negatives secured by Dr. Huntley during the four months' trip. He had opportunity to talk with many individuals who witnessed the terrible massacres and the exile of the Armenians from their homes, and when he had done none questioned but that the needs of these people are the greatest facing the world today, and that America is their only hope.

The speaker explained that the Armenians are Caucasian and Christian, while the Turks are Mongolian and Mohammedan, the teachings of the latter being to kill if unable to convert to their faith. The Armenians were prosperous, but were kept in subjection lest they become too strong and rebel. He told of the several preliminary massacres and of the final crisis, when the men able to take up arms were murdered or exiled, the young women sold into worse than slavery in Turkish harems and the children left orphans and destitute.

There are, he said, about 750,000 adults who must be succored, 100,000 young women, half of whom have been liberated and dependent upon aid, and at least 250,000 helpless children to be clothed and fed. Do the best we can, said the speaker, it will be impossible to save all of these and the workers must actually choose the strong and promising and abandon the others among the children or else all will die for lack of sustenance. He had pictures showing that the country should be one of the world's gardens and in contrast showed the desolation of some of the cities, where not more than a score of the houses were left inhabitable. His accounts of the shocking brutality of the Turks were beyond belief had they not come from one in whom fullest confidence can be placed.

The speaker exhibited, in addition to the many fine views, some interesting exhibits, one being of a suit of shreds which one of the nameless little orphans had worn for four years, which was a distressing sight. One of the most pathetic facts of the whole recital is the fact that some of these little children are compelled to wander about in a cold country, caring for themselves, picking up discarded rags for clothing and subsisting on anything they can find that looks like food. Many of them were so young when their next of kin were killed that they know not their names even.

Before closing his address, Dr. Huntley stated that Oneonta is asked to raise 50 cents per capita for this cause during the current year, and that \$150 would provide food, clothing and other necessities for a child for the year. After credit is given for contributions already made, the city will be asked to provide for 15 of these little waifs for the year, and he said he felt perfectly confident that the city would respond.

Opening his address Dr. Huntley declared that Oneonta is a most delightful city. Yes, said he, I feel inclined to say to you that to me it is the most charming city, and I am looking forward to the time when I shall retire to coming to Oneonta to spend my last years. He will still find it then what he has always thought it to be, for he has many warm friends here.

Earlier in the day Dr. Huntley spoke from his former pulpit at the Chapin church, where he addressed many old parishioners and friends, speaking most interestingly of the needs of the Near East and of the necessity for the peace of the world that the situation there be cleared. At that service over \$500 was donated for the cause, with contributions still to come from some of the generous members.

Later an effort will be made to secure the quota assigned to this city. Meanwhile, The Star will receive and forward any contributions readers would like to have at work for these sufferers, which sums will be applied to the credit of the city on the quota.

#### MAY RUN EXPRESS TRAINS.

Increased Volume of Express Matter Delays Passenger Trains.

It is reliably stated that the D. & H. company is considering adding to the schedule when the summer time table is announced an express train each way daily to handle the constantly increasing volume of express matter. The delay in freight shipments, incident to lack of cars and other difficulties, has necessitated sending much matter formerly shipped by freight by express, with the result that some of the first class trains are being delayed by the volume of matter to be loaded and unloaded at all points, especially at the larger places on the division.

There has been talk in the past that an express train each way would be an economical step, but not until the present time has the suggestion been given serious consideration. Now it would seem that the subject is one demanding attention and one that requires action to relieve the congestion.

On Saturday afternoon the Albany train, which carries many passengers, was heavily laden with express matter, to such an extent that the passenger coaches were west of the water plug when the train halted at the station here, and the local westbound at night has so many express cars that it is not uncommon to hear the passengers talk about "walking to Colliers" to take the train. It is probable that an early decision will be reached.

#### DOPE FOR BALL FANS.

Local Team to Start Practicing Tuesday Afternoon.

Manager Weidman will call practice for all local baseball players to try out for the local team, Tuesday, at 4:30 p. m., at Neahwa park. It is desired that all local talent report at the field for try-out, as the management will run a local team up until the middle of June, at which time six college players will report to Oneonta and the other six players will be chosen from local talent trying out for the team.

Games have already been scheduled for the local team on May 26 at Norwich, and Norwich here May 31, Decoration day.

#### Chicago Stock Have Large Equipment.

The Chicago Stock company broke all records here yesterday in the amount of scenery carried to produce their seven great plays to be presented at the Oneonta theatre this week. It took the local transfer company all morning to haul this equipment from the sixty-foot baggage car at the station to the stage of the theatre and now that building is crowded in every inch of space to accommodate it.

The engagement opens today with a matinee and also this evening at 8:30 when Margaret Livingston's comedy hit "When the Cat's Away" will be presented for the first time in the city at any price.

This screaming comedy is from the pen of Avery Hopwood, author of "Fair and Warmer" and "Twin Beds" and the play is declared to be a funnier play than either of these or than "Up in Mabel's Room."

Tomorrow matinee and evening "The Brat" will be the offering. This play needs no introduction as its success in New York and all the other large cities is well known. To one enjoying a good clean two hour comedy they need look no further than "The Brat," as it is declared by all the best critics of the country to be the greatest play since "Peg o' My Heart."

For full particulars refer to the advertisement in another part of this paper.

#### Sherman Lake Jazz Band.

Albert M. Morse Succeeded by Martin Crose, Formerly a Conductor.

Albert M. Morse has resigned his position with the D. & H. as general night yardmaster here and will return to his former position as yard conductor. His retirement is uniformly regretted, as he is not only popular with the men, but has proven capable and efficient for the company, his energy and resourcefulness having proven their worth. The yard force and friends associated with him in the work have presented him with a fine traveling bag as a token of their regard.

Mr. Morse is succeeded by Martin Crose, for years engaged as a freight conductor, who, it is believed, will prove worthy of the confidence of his superiors in selecting him for the position.

The car has been overhauled and repaired there and he has been notified that it is now in readiness for him. He was accompanied by Carl Wightman who will accompany him on the return trip.

#### Tithers to Banquet.

The Tithers' association of the First Methodist church are to have a banquet at the church parlors on Friday evening and all members of the association are urged to attend. The association has an excellent record for the past year and other members have been added for the current year.

#### Traffic Violations Less Frequent.

That the city police department's campaign against traffic violators evidently is producing the desired results is evidenced by the fact that over the week-end only two motorists were apprehended. Both of these were arrested Saturday for minor offenses and one was given a suspended sentence, while the other was fined \$1.

#### Reception for Mrs. Livingston.

## OVERCOME BY COAL GAS.

Miss Carrie Jencks of West Onondaga narrowly escapes asphyxiation. West Onondaga, May 9.—Miss Carrie Jencks of this village had a narrow escape from asphyxiation this (Sunday) morning. Dr. Pomeroy, who was called after she had been found unconscious at her home, declaring that she probably would have been found in a short time. She is thought this evening to be safely beyond all danger of serious results from her experience.

At about 8 o'clock this morning Mrs. Stover, who occupies a part of her house, had occasion to pass through one of her rooms and observing a strong odor of escaping coal gas, went to the sleeping room of Miss Jencks and found her unconscious. Quickly throwing open the windows and changing the drafts on the parlor stove, Mrs. Stover sent a hurried call for Dr. Pomeroy, who responded promptly and soon had his patient restored.

It is an interesting fact that Miss Jencks has lived alone for years and that only last week Mr. Stover, who has a position on state road work here, with his wife, took possession of a part of her house. Had they not been in the house last night it is probable she would have died before help reached her.

## JOLSON AND THE JAZZ BAND

Provide Lots of Laughs on Columbia Records.

Al Jolson sings to his Spanish sweetheart for Columbia records this month. And Al Jolson in Spain is the funniest Al that has made a Columbia record yet. In "That Wonderful Kid from Madrid," this popular Sinbad star turns loose and tries to sing in Spanish with uproarious results. Coupled with Jack Kaufman's convoluted tenor solo, "I'll See You in C-U-B-A," "Lazy Mississippi," Campbell and Burr's harmonious tenor duet for Columbia records this month, tells of a pickaninny's dream of the days with his old black mammy in the Sunny South of long ago. On the other side of this record Henry Burr sings as a solo, "Rose of Virginia," a southern love song with an alluring melody.

"When My Baby Smiles at Me" is an extra funny fox-trot by the Ted Lewis Jazz Band. This is their first Columbia record in which they make their trombone laugh. And it's some laugh—the father of all laughs. In fact, because it engenders so many more. This dance is coupled with that widely popular new fox-trot, "Rose of Washington Square," played by the Kentucky Serenaders.

## MARRIAGES.
